

**DONATELLI BUILDERS, INC. WINS 2009 DREAM HOME AWARD**

Congratulations to new Chamber member Chris Donatelli of Donatelli Builders, Inc., who won in the category of best whole-house remodel 2,500-4,000 square feet in the national building and design competition: The Dream Home Awards.

The Dream Home Awards are presented to companies and individuals who assist in creating America’s dream homes and set new standards of excellence in the nation’s building industry. The prestigious competition was open to interior designers, architects, builders, remodelers, communities and trade contractors from across the country.

The winning project was a whole-house renovation of a 90-year-old Georgian-style home in Wheaton, Ill. Donatelli Builders, Inc. built two new additions and gutted the interior space, taking the home from 2,800 square feet to 4,800 square feet. The award winning home was restored to its original beauty, renovated to incorporate modern functionality and additional new construction that maintained the home’s original character while seamlessly blending traditional charm with modern design features.

“To be recognized by national judges is certainly something of which we’re proud,” said Chris Donatelli, president of Donatelli Builders, Inc. “This was a collaborative effort from a great local architect and landscape architect, as well as the gracious homeowners and our team of craftsmen, millwork specialists and sub-contractors. To have this project stand out on a national level is a wonderful recognition for us, especially in a milestone year in which we’re celebrating 20 years in business.”

*Do you have good news to share with the Chamber? We encourage you to notify us with your special achievements, recognitions or accomplishments – we’d love to spread the word. Please send your information to Jan or Eva at [info@hinsdalechamber.com](mailto:info@hinsdalechamber.com)*
